PAYMENTS

Monthly installments are due on the 1st of each month, regardless of whether it is a holiday or weekend. The payment is late on the 4th of the month at 12pm, the fastest way to submit on-time payments is through the Resident Portal where you can setup recurring scheduled payments to avoid late fees (processing fees may apply). If paying after hours, please submit payment through resident portal or place payment in designated drop box. If paying by personal check or cashier's check please make sure your full name and apartment number is listed on the memo line.

**We do not accept cash or money orders.*

The resident portal can be accessed through the property website, themarkatlanta.com or by downloading the ResidentPortal mobile app through Apple App Store or Google Play Store. The resident portal is your resource to find out about community events, contact the property, pay rent, set up monthly recurring payments, or submit maintenance requests.

If you have not signed up already please create a new account. It only takes a few minutes!

YOUR COMMUNITY AND YOU

The Mark at Atlanta is committed to building a community where people feel they belong and are cared for. Throughout the year we will be planning a variety of events aimed to help you have a well-rounded experience, become better acquainted with your roommates and neighbors, and to be involved in activities beyond current routine.

The Mark at Atlanta will host events throughout the year that are focused on Philanthropic, Academic, Wellness, and Social. Each event is tailored with the intent to add value to your life. There will be volunteer opportunities to get involved in the local community, new academic and life skills to learn like “How to Complete a Cover Letter” or take a professional headshot, grab and go breakfast to start your day right, and an array of social events from pool parties to themed trivia nights.

We highly recommend that you follow us on social media to stay informed about all upcoming events.

Semi-annually we provide you with a chance for your voice to be heard through our You Speak We Listen survey. You as the resident spend the most time on site and participate in the events. We want to know what works, and what doesn't. We are always looking to improve and with your input we certainly can.

Be on the lookout for emails with the link to submit your response.

COMMUNITY INFORMATION

The Mark at Atlanta is committed to complying with all federal, state, and local fair housing laws. This means our staff has an obligation to treat each individual consistently. To do so, and to create a comfortable and exceptional community, we have established guidelines for everyone in our community to follow. In accordance with Fair Housing laws we ask for any requests to be submitted in writing to on-site team. We appreciate your cooperation.

Residents must follow the Rules and Regulations as outlined in your Housing Contract. A copy of your housing contract can be located in the documents section of your Resident Portal referenced on page 3 of this guide. The referenced section of your Housing Contract covers several topics and resulting violations and fines that include but are not limited to:

- Access, Lock Outs, and Keys
- Visitor/Guest Policy
- Prohibited items within your unit and common area spaces
- Use of Amenities
- Noise and Parties

MAINTENANCE

Non-Emergency maintenance items can be submitted by logging into your Resident Portal. The property aims to have all non-emergency requests completed within 48 business hours. Any work order that requires us to call out an outside vendor to complete, may take additional time, but will be completed within a reasonable time-period. Any resident-caused damage to the home will be charged to your account after the work is completed.

**Note that service requests entered through only the Resident Portal will not be received until the following morning.*

Emergency maintenance is a maintenance request made after-hours. Issues may arise after hours that require immediate maintenance attention. These are situations that present a danger to people or property and include; fire, leaking pipes, flooding, toilet issues in units that have only one bathroom, no heat or AC if temperature is below 50 or above 85, or no water/power to the unit. If you are in need of emergency Maintenance assistance, please call our after-hours number at -404-994-0454

Maintenance Tips:

Toilet

- **Dispose properly.** This one is the easiest to follow of all the toilet maintenance tips. Avoid flushing anything but human waste and toilet paper down the toilet drain. Feminine products, diapers, cotton balls and swabs, paper towels, and other paper-based materials clog toilets much faster than toilet paper and waste. Keep these items out of the toilet and only flush human waste and toilet paper.
- **Clean the toilet.** Though it seems obvious to clean your toilet, residents often neglect this task, resulting in insufficient or infrequent cleaning. With regular cleaning, a toilet experiences fewer clogs in the bowl and under the rim of the seat. Plus, over time, the effort required to clean the toilet decreases.
- **Keep a plunger on hand.**
- **Shut-off valve.** The shut-off or stop valve cuts off the water supply to the toilet. It is located either under or behind the fixture. It needs to turn easily to be considered functional. It needs to be repaired or replaced if it provides resistance or doesn't turn at all. Check this valve at least once a month to ensure it always works properly.

Garbage Disposal

- **Regularly Run the Garbage Disposal**

One of the best things you can do to keep the garbage disposal in good working order is simply to run it at least once a day. Even if you don't have anything to grind up, run the garbage disposal with cold water to ensure that the blades don't become rusted from lack of use. It's also a good idea to take this time to put ice cubes into the garbage disposal. The hard cubes will get chopped up by the blades and help clean out any waste that is still stuck to the sides of the appliance or to the inside of the drainpipe.

- **Avoid Products That Damage Disposals**

Another easy maintenance step is to simply avoid putting items into the disposal if you know that they can potentially harm the disposal or the pipes. Common food items that should not be put into a garbage disposal include banana skins, broccoli, celery, corn husks, potato peels, bones, eggshells, coffee grounds, and fat.

Washer and Dryer

- **Clean Them Regularly**

When grime is allowed to build up inside your washing machine or dryer, the less effectively and efficiently it will be able to do its job. That's why cleaning both machines regularly is important so you can continue to enjoy clean, dry clothes on laundry day!

- **Keep The Doors Open**

As much as possible, you should try to keep your washer and dryer doors open or ajar whenever they aren't being used. If you close your washer or dryer door right after using it, moisture can get trapped inside the machine and cause musty odors or mold and mildew growth!

- **Wash Your Dryer's Lint Trap**

You already know how important it is to remove lint from your dryer's lint trap regularly after every use, but did you know you should also wash it periodically too? Washing the lint trap with soap and water every few months will help remove any detergent or fabric softener residue buildup limiting airflow through the trap.

After Bathing

- **Wiping down the surface with a dry towel after each use will limit the amount of residue, but proper cleaning should still be performed weekly.**

Leave the bathroom door open with the exhaust fan running for at least 30 minutes after showering or bathing.

Tripped Breaker

Resetting a circuit breaker is simple if you know how and will restore power to the room or rooms affected if there isn't an outage.

- **Locate Circuit Breaker: Find your electrical panel and open the cover.**

Locate the Tripped Breaker: Circuit breakers are small, usually horizontal switches, and may or may not be labeled (e.g., "kitchen," "bathroom," etc.). The tripped circuit breaker will be in the "off" position or a middle position between "on" and "off." Move the circuit breaker to the full "off" position and then back "on" to restore power to the affected rooms or areas.

- **Breaker Trips Again:** If the circuit breaker trips again, it could be for several reasons: too many lamps and appliances plugged into the circuit; a damaged cord; a short-circuit in a receptacle, switch, or fixture; or circuit breakers.
